Summary

Bilingual web developer with a B.A. in Computer Science and a client-facing background in retention, sales, and technical support. I listen to what customers need, explain technical solutions in plain language to non-technical people, and build and deploy websites with HTML, JavaScript, and Git.

Skills

Customer Needs Assessment, Customer Retention, Technical Troubleshooting, De-escalation, Cross-Team Collaboration, HTML, JavaScript, Python, SQL, Java, C, C#, .NET, ASP.NET, Spring Boot, REST APIs, Git, Backend Web Development, Agile Development, Test-Driven Development, Ticket Escalation, Upselling, Notion, Slack, AI Tools and Automation, Bilingual (Spanish and English)

Education

- **B.A. COMPUTER SCIENCE** – Florida International University, Miami, FL **Aug 2021 to May 2024**

Experience

Customer Solutions Representative at Spectrum **Aug 2025 to Present**

- Speak with about 20 customers per day to understand what they need, saving 50-60% of internet-only customers who call to cancel or downgrade while meeting separate monthly save goals for TV, landline, and mobile.
- Identify customer needs and recommend the right mobile line, meeting a mobile sales target of 5% of calls.
- De-escalate frustrated customers, then troubleshoot internet, TV, landline, and mobile issues, explaining technical fixes in plain language and negotiating lower bills to keep their business.
- Assess technical issues to decide when a technician dispatch is needed, and escalate tickets to the technical support team with the details they need.

Storeroom Clerk at Fort Lauderdale-Hollywood International Airport **May 2025 to Aug 2025**

- Received, verified, and processed deliveries of up to 9 pallets of inventory, ensuring accuracy by cross-checking shipment contents against purchase orders and reporting discrepancies to management.
- Maintained organized inventory using FIFO (First-In, First-Out) methods to manage product expiration dates and reduce waste.
- Fulfilled daily product requisitions for airport restaurants, accurately preparing and labeling carts for distribution to various terminals.

Gear Advisor at Guitar Center **Jul 2024 to Dec 2024**

- Reach out to 80 customers daily to convert one-time customers into clients, while managing inbound calls.
- Collaborate with various departments to fulfill client requests, such as vendor-specific inquiries and shipment investigations.
- Completed a six-week intensive course on musical instruments and actively attended ongoing training sessions to stay updated on the latest gear, learning directly from top company representatives about new and impactful products.

Projects

Portfolio Website at diegotabo.com **Oct 2026**

- Built and deployed a responsive portfolio website with HTML and JavaScript, using a GitHub repository, a custom domain, and HTTPS, with a playable game embedded on the page.

Narcosis at Ludum Dare 57 (3-day game jam) **Apr 2025**

- Completed and published a browser-playable game in a 3-day game jam.
